

Pre-Conference Workshop

Fundamentals and Applications of Widefield, Fluorescence and Confocal Microscopy

5-6 October 2026 | UPES, Dehradun

Master the fundamentals of modern biological imaging through an exclusive 2-day hands-on workshop featuring state-of-the-art microscopy systems from Evident

Train on three advanced imaging platforms:

Evident BX53
Upright Research Microscope

Evident APX100
Benchtop Fluorescence Imaging System

Evident FV5000
Laser Scanning Confocal Microscope

Workshop Highlights

- ▶ Hands-on training on BX53, APX100, and FV5000 research-grade imaging systems
- ▶ Learn widefield, fluorescence, and confocal microscopy from experts
- ▶ Acquire practical skills in image acquisition, optimization, and multidimensional imaging
- ▶ Generate high-quality, publication-ready images
- ▶ Network with leading microscopy specialists and researchers

Who Should Attend?

- ▶ PhD Scholars
- ▶ Postgraduate Students
- ▶ Faculty Members
- ▶ Researchers
- ▶ Clinicians
- ▶ Core Facility Personnel
- ▶ Industry Professionals

Special Note

Only 25 Seats Available

maximize hands-on instrument time and personalized mentoring.
